intrusion detection systems.

Magnetic tape and magnetic disk: Computer and computer storage rooms are restricted to authorized personnel; on-line query safeguards include a lock/unlock password system, a terminal oriented transaction matrix, role based access controls and audit trail. For computerized records electronically transmitted between headquarters and field office locations, system securities are established in accordance with National Institute of Standards and Technology (NIST) guidelines, including network monitoring, defenses in-depth, incident response and forensics. In addition to the on-line query safeguards, they include encryption of all data transmitted and exclusive use of leased telephone lines.

### Retention and Disposal

**Paper.** Retain at headquarters for two years then transferred to National Archives and Records Administration (NARA), Great Lakes Federal Records Center. The General Services Administration will destroy the records when authorized by the Government Accountability Office.

Magnetic tape. Magnetic tape records are retained for 90 days and then written over following NIST guidelines. For disaster recovery purposes certain tapes are stored 12-18 months.

Magnetic disk. Continually updated and permanently retained. When magnetic disk or other electronic media is no longer required or servicable, it is sanitized in accordance with NIST guidelines.

### System Manager(s) and Address

### Notification Procedure

Requests for information regarding an individual’s record should be in writing addressed to the System Manager identified above, including the full name and social security number and claim number of the individual. Before information about any record will be released, the System Manager may require the individual to provide proof of identity or require the requester to furnish an authorization from the individual to permit release of information.
