** **For the spouse of an employee who has less than 10 years of railroad service** -- If the spouse is already entitled to an age-reduced social security benefit, the age reduction in his/her tier I will be based on the age reduction applicable on beginning date of his/her social security benefit, even if he/she is already of full retirement age on beginning date of his/her railroad retirement annuity.

NOTE -- If the employee had any railroad service before August 12, 1983, the tier II reduction remains 25% for the spouse and the full retirement age remains 65 for tier II purposes.
