Worksheet for Computing Excess Railroad Retirement Taxes Withheld in 2021

If you worked for two or more employers in 2021, and your total earnings exceeded \$106,200, too much tax may have been withheld. This worksheet was developed to help you determine and claim credit for the excess taxes being collected. If more than the maximum tax was withheld by a <u>single</u> employer, you must contact your employer for a refund. **There is a new procedure that must be followed to claim excess tax credits from the IRS.**

To claim credit for excess **Tier I taxes** being collected, you must use your 2021 **Form 1040** income tax return. To claim credit for excess **Tier II taxes**, being collected, you must submit IRS **Form 843**.

1. Add all social security and Tier I RRTA tax shown on Forms W-2 from all employers (not counting more than \$8,853.00 for each employer.) Enter the sum in area 1c. 1 1a. Amount of Tier I tax withheld by Employer #1 1b. Amount of Tier I tax withheld by Employer #2 = 1c. Total amount of Tier I tax withheld 2. Show Tier I RRTA tax on any unreported tips on Line 5 of IRS Form 1040 Schedule 2. Also include any uncollected Tier I tax on group-term life insurance. Uncollected tax (UT) is shown in Item 12 2. Total Tier I tax uncollected 3. Add the amount shown in areas 1c and 2. Enter the sum in 3. (If the amount is \$8853.60 or less, enter "0" in box 5 and go to line 6.) 3. Total of 1c and 2 4. Employee 2021 RRTA Tier I tax limit. 4. \$8853.60 5. Subtract line 4 from line 3. Enter the remainder, which is your excess Tier I tax. This is the amount of tax credit which should be entered on Line 23 of IRS Form 1040. 5. 6a. Amount of Tier II tax withheld by Employer #1 * 6b. Amount of Tier II tax withheld by Employer #2 = 7. Show Tier II RRTA tax on any unreported tips on Line 5 of IRS Form 1040 Schedule 2. Also include any uncollected Tier II tax withheld by Employer #1 * 6b. Amount of Tier II tax withheld by Employer #2 5c. Total amount of Tier II tax withheld 7. Show Tier II RRTA tax on any unreported tips on Line 5 of IRS Form 1040 Schedule 2. Also include any uncollected Tier II tax on group-term life insurance. Uncollected tax (UT) is shown in Item 12 of IRS Form W-2. 6c. Total amount of Tier II tax withheld <t< th=""><th></th><th></th><th></th><th></th></t<>				
withheld by Employer #1 * withheld by Employer #2 = I tax withheld 2. Show Tier I RRTA tax on any unreported tips on Line 5 of IRS Form 1040 Schedule 2. Also include any uncollected Tier I tax on group-term life insurance. Uncollected tax (UT) is shown in Item 12 2. Total Tier I tax uncollected 3. Add the amounts shown in areas 1c and 2. Enter the sum in 3. (If the amount is \$8853.60 or less, enter "0" in box 5 and go to line 6.) 3. Total of 1c and 2 4. Employee 2021 RRTA Tier I tax limit. 4. \$8853.60 5. Subtract line 4 from line 3. Enter the remainder, which is your excess Tier I tax. This is the amount of tax credit which should be entered on Line 23 of IRS Form 1040. 5. 6. Add Tier II RRTA tax from Forms W-2 from all employers (not counting more than \$5,203.80 for each employer.) Enter the sum in area 6c. 6c. Total amount of Tier II tax withheld 7.
