<sup>1</sup> Data provided by the U.S. Department of the Treasury's Monthly Treasury Statement.

<sup>2</sup> Railroad retirement benefits shown are net of reduction for social security benefit entitlement.

<sup>3</sup> For employees retiring directly from the railroad industry with full age annuity; their years of service averaged 30. Other age annuities awarded in the month numbered 200; they represent deferred retirements as well as the immediate retirements of employees less than full retirement age with reduced annuities.

<sup>4</sup> For men full retirement age or over.

Retirement and Survivor Benefits, Including Supplemental Annuities

<sup>5</sup> A disability annuity ends when the retiree attains full retirement age, at which time the annuity converts to an age and service annuity. Consequently, these annuitants are receiving age and service annuities. Full retirement age gradually increases, from age 65 to 67, for those born between 1937 and 1960. It is age 67 for those born after 1959 and age 65 for those born before 1938.

<sup>6</sup> Fewer than 50.

<sup>7</sup> Remarried and divorced widow(er)s included with aged and disabled widow(er)s and widowed mothers and fathers.

<sup>8</sup> Excludes partition payments to spouses and divorced spouses where the employee is deceased. Number and averages are for employee annuitants only and reflect court-ordered partitions.

Though the REEF Act, enacted December 23, 2024, ended sequestration retroactively to May 9, 2023, benefit amounts reflect the provisions in place at time of payment. Repayment of benefit amounts will be included in the month in which they are repaid.
