¹ Monthly index numbers are seasonally adjusted. Annual index totals are the average of not seasonally adjusted data.

² CPI-W based on wage-clerical worker spending patterns, CPI-U on expanded population sample covering all urban consumers.

³ Employment data for 2024 was revised and finalized in November 2025. Employment data for 2025 was also revised and is preliminary. Employment data for 2025 is expected to be finalized in November 2026. Employment data is based on mid-month numbers from the Surface Transportation Board.

⁴ Increase (+) or decrease (-) from previous year or from same month in previous year.

⁵ Prior to 2019, net benefit payment amounts were provided by the U.S. Railroad Retirement Board's Bureau of Fiscal Operations. Beginning in January 2019, RRA net benefit payment amount is provided by the U.S. Department of the Treasury's Monthly Treasury Statement, and RUIA benefit payments reflect gross amounts.

⁶ The Social Security Fairness Act, signed January 5, 2025, and effective retroactively to months after December 2023, ends the reduction of Tier I retirement benefits paid to rail employees, spouses, or widow(er)s who qualify for both a railroad retirement annuity and a federal, state, or local government pension. After the implementation of this law, cases started to be manually reviewed in January 2025, with the first mass adjustment occurring in June 2025 followed by a second mass adjustment in July 2025.

⁷ Amounts reflect a reduction of 9.2% under sequestration for days of unemployment and sickness after February 28, 2013, a reduction of 7.2% for days after September 30, 2013, 7.3% for days after September 30, 2014, 6.8% for days after September 30, 2015, 6.9% for days after September 30, 2016, 6.6% for days after September 30, 2017, 6.2% for days after September 30, 2018, 5.9% for days after September 30, 2019, and 5.7% for days after September 30, 2020. Beginning January 3, 2021, the Continued Assistance to Rail Workers Act of 2020 temporarily suspended sequestration through May 9, 2023, 30 days after the Presidential declaration of an end to the national emergency concerning the COVID-19 pandemic. The Railroad Employee Equity and Fairness Act of 2024 (REEF Act), enacted December 23, 2024, ended sequestration retroactively to May 9, 2023, but benefit amounts reflect the legislation in place at time of payment. Manual review of payments began soon after, with daily mechanical adjustments occurring from late May into August 2025.

⁸ Source: The Association of American Railroads (AAR). U.S. rail total traffic consists of carloads and intermodal units and excludes the U.S. operations of Canadian National and Canadian Pacific. Effective 2018, U.S. rail total traffic also excludes the U.S. operations of Grupo México Transportes.

⁹ Tier I and Tier II creditable payrolls, which became effective with the Railroad Retirement Act of 1974, have annual earnings bases. RUIA payroll has a monthly earnings base. Tier I payroll includes miscellaneous compensation.

The total amount from the Treasury's Monthly Treasury Statement is \$263.5 million.

¹² Data unavailable due to the source agencies' inability to collect data during the lapse in federal appropriations.

NOTE:---Annual figures are averages of available monthly figures. Mid-month employment count is estimated number of employees in active pay status on carrier reporting date, excluding strikers and other employees whose absence from duty is strike-related, and without regard to whether such excluded employees are qualified for or receiving RUIA unemployment benefits. Railroad unemployed represents number claiming benefits in week including the 15th of the month. Benefits are net amounts paid during the month and do not necessarily relate to the period in which accrued. RRA benefits include payments from the Dual Benefits Payments Account. Quarterly figures shown opposite last month of quarter. Changes from preceding month's report reflect revisions based on later data. Detail may not add to totals shown because of rounding.
